## UP AND DOWN DAY IN COTTON MARKET

By Associated Press

NEW ORLEANS, Aug. 12.—Moderate widening of the margins featured the trading in cotton today and they were one party to hopes of rain in drought areas in the western belt and partly to rumors received by brokers that the rail strike situation was being further complicated by men of the "Big Four" brotherhood walking out. Lowest prices came late in the session when the trading months were 24 to 47 points under the close of yesterday. Last prices were at net losses of 33 to 36 points. October sold as low as 29.42 and closed at the lowest.

Overnight liquidation by the long interests was against values in a mild way around the opening, lowering the price by from 1 to 5 points.

Overnight news regarding the rail strike was considered encouraging and by the middle of the session prices were up to 15 points over the level of yesterday's close. In the second half of the session the tone was distinctly easy, the market changing complexion as a result of western weather accounts,

## NEW LOW PRICES MADE BY ALL GRAINS

By Associated Press

CHICAGO, Aug. 12.—New low figures for the season were made in all grains today. September wheat and corn were quiet and steady; overnight news developments apparently being disregarded as market factors. The general trend was upward under the leadership of Mexican Petroleum, which gained 1% points, the independent steel and equipment shares. New high records for the year were established by Wanamaker, Peacock, and others.

Provisions were easier in sympathy with grains and on scattered selling, the trade being light. Wheat—High 1.64, Low 1.62, Close 1.64. Corn—High 1.65, Low 1.62, Close 1.65. Maize—High 1.66, Low 1.65, Close 1.66.
